

Small Group / Personal reflection material

ASCEND THE MOUNTAIN

(18 April 2021)

1. If you had to describe your faith experience / journey right now in terms of a hike up a mountain, where would you say you are on the mountain and how is the traverse going?
2. Read Psalm 121. What significance do you think it has to look up into the mountains in seeking God?
3. Just like you need supplies (a map, water, a compass, good boots etc.) to climb a physical mountain, what tools have you found to be most important in your journey with Jesus?
4. Is there a tool you are currently missing or under-utilising?
5. How do you think we can make sure that we are climbing the right mountain – i.e. seeking and pursuing God, and not heading off on our own mission?
